4.1 & 4.2 Refresher

Tri-Gas & Oil: 4948 Williamsburg Road, Hurlock, MD 21643

Time: 8:30 AM – 5:00 PM

Please share the registration details with your safety and training coordinators, and consider posting them in break rooms or other common areas so employees can easily review upcoming class information.

Refunds are not available; however, substitutions may be made if someone is unable to attend. Classes tend to fill quickly, so early registration is strongly encouraged. To avoid late registration fees, please complete registration at least 7 business days prior to each class. Since materials and meals must be arranged in advance, we cannot guarantee availability for last-minute registrations.

As a Reminder: *We no longer print and distribute hard copies of class materials. Prior to each class, students will receive an electronic version of the materials that they will be able to print and bring with them if they prefer. Students will be provided a laptop at the class to access the materials, but they are welcome to bring their own laptop or tablet. Please contact Jessica Pinto with any questions.*
